USE EVERY WEEK

CAN BE USED TOGETHER

## POND CLEANER - DRY

Natural Bacteria that helps keep water clean & clear. Mix this product into a bucket of pond water and pour throughout the pond on a weekly basis. **1 oz. treats 1,000 gallons.**

## MUCK BUSTER

Beneficial Bacteria with Barley that helps break down sludge. Mix this product into a bucket of pond water and pour throughout the pond on a weekly basis. **1 oz. treats 500 gallons.**

## AQUA FIX - LIQUID

Removes stringy growth from throughout the pond. This product should be used when you don't have direct access to the stringy growth because it is too far away in the pond or too deep. Use this whenever stringy growth becomes present. **Do not add Aqua Fix on the same day you treat with Pond Cleaner or Muck Buster. 1 oz. treats 600 gallons.**

USE WHEN STRINGY GROWTH PRESENT

## AQUA FIX - DRY

Removes stringy growth from waterfalls, rocks, & streams. This product works on contact so add this directly to the stringy growth. It is best to turn off pumps so water stops flowing. Add the powder directly to the stringy growth & let sit for about 15 minutes. Spray or wash away stringy growth. Turn pumps back on. Use this whenever stringy growth becomes present. **Do not add Aqua Fix on the same day you treat with Pond Cleaner or Muck Buster.**

## SPRING & FALL CLEAN

The bacteria, similar to aquatic plants consume excess nutrients, but are also capable of breaking down organic debris. It is important to the ponds ecosystem for these microbes to become established as early in the spring as possible. Spring & Fall water soluble packets is perfect for both spring and fall because it works at temperatures below 50 degrees. **1packet treats 1,00 gallons.**

USE WHEN ADDING WATER TO POND

## PURIFY - DRY

Dechlorinator. Add directly to pond water to remove chlorine in your water. Use this whenever you add water to the pond.
